You are about to purchase a product that is not simple and may be difficult to understand.

1. WHAT IS THIS PRODUCT?

TYPE

An Over the Counter (OTC) derivative contract – FX Non-Deliverable Forward

TERM

The product has a fixed contractually agreed term and will terminate after 2 years.

OBJECTIVES

FX Non-Deliverable Forward products are used for managing foreign currency risks.

An FX Non-Deliverable Forward is an agreement between two contracting parties (client/UniCredit Bank Czech Republic and Slovakia, a.s., organizačná zložka UniCredit Bank Czech Republic and Slovakia, a.s., pobočka zahraničnej banky) to exchange an agreed amount of one currency for another currency at an agreed fixed rate on an agreed future date.

In an FX Non-Deliverable Forward, you sell an amount of a specific currency (e.g. USD notional amount) and buy an amount of another currency (e.g. EUR notional amount) at an agreed fixed rate (NDF rate) on an agreed future date (settlement date).

Instead of physical settlements of the notional amounts, you will make or receive a payment of a net cash settlement amount on the settlement date.

The net cash settlement amount represents the difference in value between the USD notional amount converted into the settlement currency at the reference rate (i.e. spot reference rate that is observed on an agreed pricing source) and the USD notional amount converted into the settlement currency (e.g. EUR) at the NDF rate at expiry date.

If the reference rate is determined above the NDF rate at expiry date, you will receive the net cash settlement amount in the settlement currency at the settlement date.

If the reference rate is determined below the NDF rate at expiry date you will pay the net cash settlement amount in the settlement currency at the settlement date.

Sample product terms are set out below and are based on legally predefined or realistic assumptions and may not match your specific contract details.

Currency pair	EUR/USD
EUR notional amount	EUR 10,000.00
USD notional amount	USD 12,201.00
NDF rate	1.2201
Expiry date	13/10/2027
Settlement date	15/10/2027
Settlement currency	EUR

INTENDED RETAIL INVESTOR

This product is designed for retail investors who

(i) hold this product for the contractually agreed term,

(ii) are in the position to bear losses that may be unlimited and

(iii) have comprehensive knowledge of and/or past experience with OTC derivatives and the financial markets.

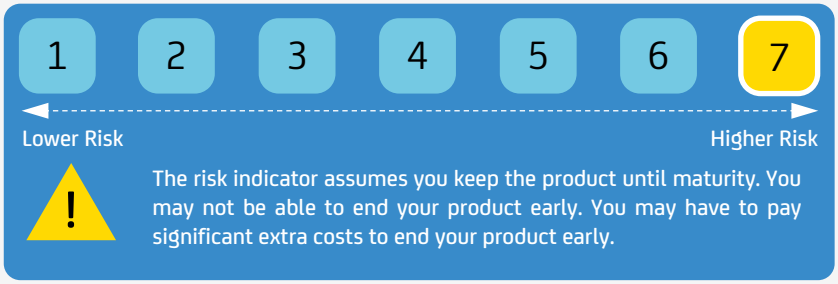
2. WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

UniCredit Bank

We have classified this product as 7 out of 7, which is the highest risk class.



Be aware of currency risk. You may pay and/or receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

In some circumstances you may be required to make payments to pay for losses. **The total loss you may incur may be significant.**

This product does not include any protection from future market performance so you could incur significant losses.

If we are not able to pay you what is owed, you could incur significant losses.

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period: **Example notional amount:** **Scenarios**		**If you end after 1 year**	**2 years** **EUR 10,000** **If you end after 2 years**
Minimum scenario	There is no minimum guaranteed return. You may have to make further payments to cover losses.		
Stress scenario	What you might get back or pay after costs	EUR -3,328	EUR -3,636
	Average return/loss over notional amount each year	-33.3%	-18.2%
Unfavourable scenario	What you might get back or pay after costs	EUR -1,436	EUR -2,146
	Average return/loss over notional amount each year	-14.4%	-10.7%
Moderate scenario	What you might get back or pay after costs	EUR -398	EUR -609
	Average return/loss over notional amount each year	-4.0%	-3.0%
Favourable scenario	What you might get back or pay after costs	EUR 490	EUR 720
	Average return/loss over notional amount each year	4.9%	3.6%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back or pay.

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes, which have been calculated based on simulations using the past performance of the currency pair over the past 5 years. The stress scenario shows what you might get back or pay in extreme market circumstances.

This product cannot be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before the end of the recommended holding period. You will either be unable to cash in early or you will make a large loss if you do so.

3. WHAT HAPPENS IF UNICREDIT BANK CZECH REPUBLIC AND SLOVAKIA, A.S., ORGANIZAČNÁ ZLOŽKA UNICREDIT BANK CZECH REPUBLIC AND SLOVAKIA, A.S., POBOČKA ZAHRANIČNEJ BANKY IS UNABLE TO PAY OUT?

Counterparties of derivative transactions are exposed to the risk that UniCredit Bank Czech Republic and Slovakia, a.s., organizačná zložka UniCredit Bank Czech Republic and Slovakia, a.s., pobočka zahraničnej banky becomes unable to discharge its obligations under the transaction, for example in the case of an insolvency (inability to pay or overindebtedness) or in the case resolution measures are taken by an authority against the credit institution. Such a decision to take resolution measures can, for example, be taken if the assets of the institution are less than its liabilities, where it is unable or will, in the near future, be unable to pay its debts or other liabilities as they fall due, or where it requires extraordinary public financial support. Where resolution measures are taken, the competent resolution authority can decide on an early termination of the derivative transaction. In the case such early termination results in a claim of the counterparty against the credit institution, the decision of the resolution authority can lead to a partial or complete reduction of the principal amount of this claim or in a conversion of this claim in to equity (shares or other types of equity).

If UniCredit Bank Czech Republic and Slovakia, a.s., organizačná zložka UniCredit Bank Czech Republic and Slovakia, a.s., pobočka zahraničnej banky does not fulfil its obligations connected with the product or is unable to pay, you can lose part of or the full payout or can suffer an unlimited loss. This product is not protected by any deposit guarantee scheme, legal or otherwise, or any other type of guarantee.

4. WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- The product performs as shown in the moderate scenario.
- A notional amount of EUR 10,000

	If you end after 1 year	If you end after 2 years
Total costs	EUR 280	EUR 233
Annual cost impact (*)	2.8%	1.2%

(*) This illustrates how costs reduce your return in relation to the notional amount each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -1.8% before costs and -3.0% after costs.

COMPOSITION OF COSTS

One-off costs upon entry or exit		If you end after 1 year
Entry costs	These costs are already included in the price you pay.	Up to EUR 233
Exit costs	These costs only apply if you exit before maturity (end of the agreed term).	EUR 47

5. HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 2 years

The recommended holding period corresponds to the contractually agreed term. You are not entitled to unilaterally terminate the product prematurely. However, the right of early termination may be agreed for one or both contracting parties. In the event of an agreed early termination, you will either receive or pay a compensation payment, which is made up of the market value of the product and the termination costs, including a margin earned by the bank. Significant additional costs may be incurred.

6. HOW CAN I COMPLAIN?

You can make complaints about the product, or about the behaviour of the issuer of the product or of the persons that provide advice regarding or who sell the product, on the following website www.unicreditbank.sk/PRIIPS, in writing to UniCredit Bank Czech Republic and Slovakia, a.s., pobočka zahraničnej banky, Šancová 1/A, 813 33 Bratislava, Slovenská republika or via e-mail to reklamacie@unicreditgroup.sk.

7. OTHER RELEVANT INFORMATION
