

With UniCredit Bank, you can now pay **in dozens of different exotic currencies** without having to maintain an account in that currency.

Simply use **BusinessNet internet banking** and make a payment in an exotic currency. No commitment, no specific contract, no additional fees.

What is this service for?

- To cover operating expenses in the given country (rent, insurance, salaries).
- To pay for goods and services in the partner's domestic currency, if payment is more advantageous.
- To cover travel expenses for accommodation, transport, or participation in trade fairs.
- To pay tax liabilities or principal amounts in public tenders or auctions.

Before making a payment, please read the Exotic Currencies Guide available on the Bank's website.

Your benefits:

Easy and fast payment

We will book the payment to your EUR account. You don't need to look for a non-bank partner capable of delivering the payment or opening an account in the given country.

Exact payment amount without additional charges

The payment is not subject to any correspondent fees; the full amount of the transfer is always delivered (thanks to UniCredit's unique cooperation with an external partner) without any additional fees for specific fee management.

Savings for your partner, the beneficiary

The payment is delivered in the beneficiary's country as a local transfer, i.e., for a lower fee compared to a cross-border SWIFT transfer (e.g., in USD).

Reliability

Payments in exotic currencies will arrive at the beneficiary's bank two days after they are booked at UniCredit Bank.

Know-how

We leverage the expertise of our global partners in payments-to-exotic-destinations and advise you on how to successfully deliver your payment.
