internal approvals are obtained. The Bank shall not be obliged to notify the Client of the reasons for the non-conclusion of the contract or the non-fulfillment of the transaction, unless otherwise provided in a special regulation.

8.2 The Bank may issue one Price List divided into several parts which adjusts the Remuneration applicable to individual segments of the Bank's Clients, or the Bank may issue separate Price Lists for each of the segments. The Bank determines segment categorisation of the particular Client and notifies the Client at any time upon request. The Bank publishes and makes available the Price List at its web site and in its Branches. The Client is entitled to receive the Price List also in paper form, upon request at the Bank's Branch.

8.3 The Bank is entitled to unilaterally change the Price List during the contractual relationship between the Client and the Bank for the reasons stated in these General Business Terms and Conditions, in a contract with the Client or due to a serious objective reasons notified to the Client prior to the effect of the Price List change, or without stating any reason, if the law or the contract with the Client provide for such right of the Bank. If, following the conclusion of a contract between the Bank and the Client, circumstances change to the extent that the

In the event that the available funds on the account are insufficient to meet the Bank's claims against the Client in full, the Bank may settle the difference between the amount of cash available and the amount of the Bank's receivables to the debit of the account of the Client whereas the Client shall be obliged to settle negative balance of the account without undue delay. - 9.3 The individual amounts payable by the Client to the Bank for the settlement of due liabilities shall be debited by the Bank from the Client's account in order according to their maturity. If the available balance of funds in the account is not sufficient together with other Client's funds provided to the Bank to cover all due liabilities, in case the principal and interests are owed, the Slovak Civil Code provides that the debtor's performance shall be charged first to the principal and then to interest, and under the Slovak Commercial Code first to interest and then to the principal, in both cases provided that debtor does not specify in writing otherwise. The Bank is not responsible for any damages on the part of the Client resulting from unpaid payments due to lack of funds available on the account.
- 9.4 If the Client fails to fulfill its obligations to the Bank in a timely manner, the Bank may, at any time, set off its outstanding claims against any of the Client's monetary claims against the Bank, irrespective of their currency, maturity and legal relationship they result from.
- 9.5 The procedures under clauses 9.1 to 9.4 of these General Business Terms and Conditions will also apply if a contractual relationship between the Bank and the Client terminates or if there is a serious reason for possible Client's inability to meet its obligations towards the Bank.
- 9.6 Under the provisions of clauses 9.1 to 9.4 of these General Business Terms and Conditions, the Bank's right to the payment of a contractual penalty shall not be affected if it has been agreed upon in the relevant contractual documentation concluded between the Bank and the Client and the conditions for its application have been fulfilled. By exercising the right to a contractual fine under these General Business Terms and Conditions, Product Terms and Conditions or any contractual relationship between the Bank and the Client, the Bank's right to compensation for damages arising from the breach of the obligation to which the contractual penalty applies, shall not be affected.
- 9.7 The Client may not unilaterally offset any of its claims against the Bank against the Bank's claims against the Client irrespective of their currency, maturity, or legal relationship from which they arise.
- 9.8 If the Client's liability is not paid when due, the Bank is entitled to charge default interest in addition to the agreed interest rate, from the date of the delay (inclusive) up to the day preceding the full payment of the amount due. The Client is obliged to provide a security or an additional security in the form, quality and value determined by the Bank. The Bank is entitled to require the Client to secure any future or contingent Client's liabilities to the Bank as a condition of its performance in favor of the Client.
- 10.2 At any time upon request of the Bank, the Client shall ensure without undue delay, at his own expense and even repeatedly, the valuation of the collateral by an expert selected from a list maintained by the Bank or by another expert previously agreed by the Bank. Collateral may also be valued by the Bank. If the Client is inactive, the Bank is entitled to make the valuation of the collateral itself or to provide for the valuation at the Client's expense with a third party. In justified cases, the Bank is entitled to obtain a review (control) valuation of the collateral at the expense of the Client. 14.1 If there are references to any monetary limits in the Euro currency in the contract, Product Terms and Conditions or in these General Business Terms and Conditions, and unless the context otherwise requires, these limits apply analogously to other currencies, with the result that an equivalent amount of the limit in the foreign currency shall be calculated by using the “middle” exchange rate published by the Bank on the day of the relevant transaction or on the day on which the Bank assesses the fulfillment of the specified limit.

14.2 If Euro is the transaction currency, then the banking day shall mean the day on which banks in the Slovak Republic execute banking transactions within the scope of their licenses or perform other activities and provide other services within the scope of their businesses and that day is not a rest day or public holiday in the Slovak Republic. The bank business day is not, for example: holidays or state-recognized holidays in the Slovak Republic, rest days (weekends) and days declared in advance by the Bank as its non-business days.

14.3 For the execution of currency conversions by the Bank, unless otherwise agreed, the following rules shall apply:

- a) if the Bank converts from a foreign currency into the Euro currency, the conversion shall be made using the Bank’s “FX buy” spot exchange rate (for noncash conversion) or, as the case may be, “foreign cash purchase” exchange rate (the “cash desk” exchange rate for depositing of cash in a foreign currency on an account kept in the Euro currency or for exchange office operations with a foreign currency);
- b) if the Bank converts from the Euro currency into a foreign currency, the conversion shall be made using the Bank’s “FX sell” spot exchange rate (for noncash conversion) or, as the case may be, “foreign cash sale” exchange rate (for withdrawal of cash in a foreign-currency from an account kept in another currency or for exchange office operations with a foreign currency);
- c) if the Bank converts funds from one foreign currency into another (purchase or, as the case may be, sale of noncash FX/foreign cash), the conversion shall be made using the spot cross rate for the currencies fixed by the Bank on the basis of the exchange rates defined in sections a) and b) of this Article;
- d) a spot exchange rate is the exchange rate stated on the Bank’s table of exchange rates valid on the date of effectiveness of the transfer order or at the time of executing the transaction involving currency conversion.

14.4. The table of exchange rates is published on the Bank’s web site and in the Bank’s Branches.

14.5. If the interest rate on a credit transaction is determined by using the reference interest rate EURIBOR or LIBOR, or if the interest rate on the deposit is determined by using the reference interest rate EONIA and, if such a situation exists on the interbank market, that:

- a) the Bank's cost of obtaining refinancing funds for the corresponding period exceeds the relevant reference rate, EURIBOR, LIBOR or EONIA quoted for that period; or
- b) it is not possible to obtain refinancing resources for the relevant period on the interbank market, or
- c) the relevant EURIBOR, LIBOR, or EONIA will not be published from any reason, and at the same time the agreement with the Client or the specific regulation binding for the Bank does not prescribe an alternative method for its determination, then the interest rate for the Client will be determined based on the Bank's actual costs from any resources allocated to such banking business, whereas the Bank shall at all times use the sources of funding to avoid undue cost increase on the Client.

14.6. If the published reference rate EURIBOR, LIBOR, or EONIA is negative, the reference rate is not taken into account when determining the resulting interest rate, and the Bank instead uses value of 0.01% p.a. unless the Bank's cost exceeds this value. In such case, the procedure described in Article 14.5. above shall apply accordingly.
